

## Curriculum Samples

This is a sample list of classes a student will take to pursue a degree in economics. Since university students need more than specific education in a narrow field, they also will take classes to complete the General Education Curriculum (GEC). The GEC will allow students to develop the fundamental skills essential to collegiate success across major programs. Course work options satisfying the GEC often come from a variety of academic areas of study allowing students to tailor their GEC toward their interests. Note: This sample represents one of several possible paths to a degree in economics. Consult the departmental web site, [econ.ohio-state.edu](http://econ.ohio-state.edu), for details on each specific track.
